

# **CSA Z663**

## **Land Use Planning in the Vicinity of Pipeline Systems**

**Ed Plant**

Chair of CSA Z663

T.E.P. R-O-W Co-ordination Inc.

(780) 218-4258

## History

**Back in 2015**, the CSA Group was asked by the Canadian Energy Pipeline Association and Canadian Gas Association to consider making the guidance document Plus 663, based on an old MIACC document, into a full-fledged Standard.

**Workshops were held in early 2016 across Canada. 19 organizations participated**, representing a wide variety of stakeholder groups including representatives from federal, provincial, and municipal governments; pipeline operators; as well as organizations representing planners, real estate practitioners, landscapers, and landowners. Many participants were from the Edmonton region.

**The general feedback and agreement** was that there is a need for consistency across jurisdictions and a national document that outlines a unified approach on land use planning could be beneficial

## Project Schedule

- Project Approval – *June 2016*
- Pre-Consultation Meeting – *July 2016*
- Content Development / Drafting – *Began November 2016*
- **Public Review – *Began January 12. Review open to March 12.***  
**Go to <https://publicreview.csa.ca/Home/Details/2822>**
- Technical Committee Ballot – *July 2018*
- Publication – *December 2018*
