The Public Hearing for Bylaw 64-2013 was held on January 14, 2014. **Summary**

The purpose of Bylaw 20-2016 is to amend the Urban Service Boundary to include the NE 23-53-23-W4 in order to facilitate urban level development within the subject area. As part of the proposed amendment, urban policy designations are applied to the subject lands, which would result in a policy change from Country Residential Policy Area to Low Density Residential Policy Area, Medium Density Residential Policy Area, Commercial Community Policy Area, Open Space Policy Area and Institutional Policy Area. The proposed policy area boundaries align with the concurrently proposed Hillshire Area Structure Plan.

In accordance with the Capital Region Board’s (CRB) Regional Evaluation Framework, all amendments to the MDP are subject to regional evaluation and require approval prior to Council proceeding with further readings.

The proposed amendment was previously brought forward under Bylaw 64-2013. Council gave first reading to Bylaw 64-2013 on January 14, 2014 and it was forwarded to the CRB for evaluation. The CRB issued approval on March 10, 2014. There is no change to the proposed amendment since its initial approval under Bylaw 64-2013. However, in accordance with Section 188(a) of the *Municipal Government Act*, first reading of Bylaw 64-2013 has been rescinded, as third reading was not given within the prescribed two-year period.
It has been confirmed with CRB Administration that since first reading has been rescinded, the proposal would be required to be submitted again to the CRB for consideration of regional approval.

Should Council give the proposed Bylaw 20-2016 first reading, and CRB approval is subsequently achieved, the concurrent application for the associated Hillshire Area Structure Plan will continue to be reviewed by the County and be brought forward for Council’s consideration at the same time as future readings are considered for this bylaw. With this approach, the detailed information within the Area Structure Plan application and supporting technical documents will provide the County with the information necessary to evaluate support for further readings of proposed Bylaw 20-2016.

The Public Hearing will enable the public an opportunity to provide feedback on the Bylaw directly to Council prior to Council’s consideration. The proposed amendment will be submitted to the CRB for regional evaluation should Council give Bylaw 20-2016 first reading.
